REAMOGETSE MOGOTSI

Mabopane, Gauteng 0190| 0783327644 | mogotsireamogetse@gmail.com

Objective

Motivated AWS re/Start graduate and BSc Informatics student at UNISA with technology experience through academic and strong personal projects. Built a full stack e-commerce food web application using Angular. Have solid understanding of HTML, CSS, Git and basic testing/debugging. Eager to gain real-world experience in technology environment.

Technical skills

- **Programming and AI foundation:** Python (scripting, automation, data processing), Typescript, HTML and CSS.
- **Framework:** Angular.
- **Data and Database:** MySQL(retrieve, filter, clean, analyse), Data Monitoring, Data accuracy and attention to details.
- **Cloud and Tools:** AWS Cloud Practitioner essentials, VS Code, Linux Command Line, Git, Microsoft Office, Canva.
- **OS:** Windows. and Linux.

Education

- **University of South Africa | BSc in Informatics** **In progress**
  Focus: Programming Logic, Systems Analysis and design,
  Database Management, Problem solving, Business Intelligence.

- **Rekhutjitje Secondary School** **2021**
  National Senior Certificate – Bachelor pass
  Subjects: Mathematics, Physical Science, Life Science, English.

Practical Projects & Experience

Personal Projects

- Developed a full stack e-commerce prototype with dynamic product listing cart management using Angular signals.
- Implemented UI logic, checkout to login flow with router.navigate to redirect unauthenticated users.

- Designed reusable components.
- Debugged and tested user interactions to ensure seamless functionality.
- Tech: Angular, Typescript, HTML5, CSS, Git, NodeJs.

AWS Cloud Practitioner Labs – AWS re/Start (2025)

- Managed Linux environments to execute scripts and manage data workflows.
- Applied AWS best practices for cloud platforms where AI models are deployed.
- Demonstrated data accuracy, attention to detail and analytical problem solving.

Informatics Academic Projects (UNISA).

- Designed relational database concepts and SQL queries for data driven applications (MySQL).
- Developed understanding of user-centred systems design and business process analysis.

Soft Skills

- Analytical thinking
- Communication
- Teamwork
- Curious and Innovative
- Time management

Languages

- English – Fluent.
- Sepedi- Home language
- Setswana – Fluent
